Home learning

TERM: Autumn 1

YEAR GROUP: Year 1

Homework is sent home each half term. Choose one a week on top of your daily reading. Reading with your child every day is the most important homework we set in year 1!

MATHS

Listen to the story below; it is called *Ten Monkey Jamboree* by Diane Ochiltree. There are lots of opportunities to count and combine numbers in the story!

If you'd like to, you can show us your learning in your homework book. You might choose to use objects to show what is happening, draw a picture or write some number sentences.

LITERACY

When we write, it is important that we form all our letters correctly. This will help to develop writing fluency. Use the video below to practise your letter formation in your homework book. You can use whatever you have at home: coloured pencils or pens, paint, crayons, chalk in the garden, shaving foam in a tray or any other ideas you might have!

SCIENCE

This term, we are focusing on materials. We will be identifying and naming objects and the materials from which they are made. Can you go on a hunt around your house and find some different objects and think about the materials they are made from? Which materials would you use to make yourself a coat? Can you create a design of this coat and label it? Why have you chosen these materials?

MUSIC

To get ready for our music lessons, see how many different voices you know. Pick a song you know and have a go at singing it in a happy voice, a loud voice, a quiet voice and a grumpy voice. Can you do any other voices?

ART

We are thinking about different ways to make a picture this term. Can you go for a walk and see if you can find any art in the local area? We know that there is a brand new mural under the Cow Lane bridge and one being planned under the bridge by Reading West station. There are lots of posters in shops and street art that you can look for as well. If you like, you can draw a picture or take photos of what you see on your walk.
